August 31, 2017

Dear Family,

Welcome to our class! The PreK school experience marks an important milestone in your child's development by building a strong foundation for future social and academic success.

This year will be filled with exciting activities for curious, creative learners. We will learn our letters, read books, and write stories. We will learn about number concepts, counting, and logical thinking in math. We will even become young scientists and experts on the computer! And every day, we will focus on developing language and communication skills as well as cooperating and working together.

We are especially excited about our curriculum, Big Day for PreK! Every few weeks will bring us a new theme that integrates what children are learning in all the subject areas. Our curriculum is also designed for children to develop all the essential skills they will need for kindergarten, which is how we will benchmark progress throughout the year.

Because it is important for children to be able to make connections between home and school, we will provide you with information about what your child is learning every step of the way. We will also invite you and other guests from the community to join us for special events or to just drop in for a few minutes to read a book to the class.

Let us know if there is ever anything we can do to make the classroom a more welcoming place for your child. We look forward to partnering with you this year to make every day a Big Day.

*Sincerely,*

*The PreK Teaching Team*
