

## School Based Integration Awards - 2016/17 school year

To better meet the needs of the students, families, and staff of our Racially Identifiable Schools (RIS) and to better align the intent of our work with the purpose of the integration revenue, the process for the school based awards has changed.

The funds are only available to the RIS sites and they will be determining how to use them to best meet the needs of their students. If you are interested in working with any of the schools listed below, please contact the administrator directly.

Current Racially Identifiable School List as determined by the Minnesota Department of Education:
